

JOB ANNOUNCEMENT

Position: Civil Engineer / Project Engineer

Office Location: Seattle, WA and Honolulu, HI

Orion invites you to join our growing firm! Our core values center around our employees. We recognize employees are essential to our success and our ability to deliver exceptional client service. This is a unique opportunity to work alongside national experts in the airfield engineering industry and with a diverse team, passionate about engineering.

Job Description: Orion seeks experienced candidates to design airports and other civil site development projects. The position involves civil design of airport infrastructure including runways, taxiways, aircraft aprons, airfield electrical improvements, drainage, grading, and other airport civil infrastructure. The Civil Engineer / Project Engineer will provide airfield engineering services related to planning, assessments, design, project management, and construction management of airport-related infrastructure. The candidate will lead a design team in preparing engineering plans and documents and assist with Construction Administration and Management. This position is ideal for an enthusiastic individual interested in a project management career track.

The position requires site visits during construction, assistance with Construction Administration and Management, Construction Inspection, and Reporting. Active participation in Health and Safety and Quality Management Plans required.

Minimum Qualifications:

- Bachelor's degree in civil engineering, or other related engineering degree applicable to design and/or construction of civil infrastructure projects.
- A minimum of 7+ years post graduate experience in Civil Engineering.
- Must be a licensed Professional Engineer in Civil Engineering in the State of the office location they are applying for or with the intention to obtain licensure within 6 months. Candidates intending to take the PE exam will be considered.
- Proficient in AutoCAD Civil3D and Microsoft Office 365.
- Successful clearance of TSA Security Screening and background check to work at commercial airports.
- Ability to travel domestically and internationally for project-related meetings during design and construction.
- Experience writing reports and technical communications and client communications.

- Must be well-organized and able to manage and prioritize multiple tasks to ensure on-time project delivery, client service, and quality management.
- Excellent English verbal and written skills.
- Ability to work both independently and in a team environment.
- Must possess a valid driver's license.
- Field work in an airport and/or construction environment requires varying work schedules including night work.

How To Apply:

- Submit a cover letter and resume with your work history and project experience. Please also indicate your preferred office location (Seattle or Honolulu).
- Selected applicants will be invited to an initial phone interview.
- Shortlisted applicants may be contacted to schedule an interview with the Hiring Manager.
- Shortlisted applicant's references and previous employers may be contacted to verify work experience.

Job Type: Full-time

Pay: \$90,000.00 to \$100,000.00 per year

Benefits:

401K	Paid Time Off
401K Matching	Paid Holidays
Health, Dental and Vision Insurance	Professional Development Assistance
Life Insurance	Retirement Plan
